It can also resize, crop, rotate, merge, combine, convert, and colorize image and video files. Highly intuitive GUI Batch compression and decompression mode Integrated player and support for any video format Easy to use with no tricks or settings EzGui 3.2.0 is free and easy to use graphics and video tool that allows you to customize images and videos via a simple and intuitive graphical user interface. The program can easily extract and remove a few basic image properties such as EXIF, IPTC, and Flash files. It can also resize, crop, rotate, merge, combine, convert, and colorize image and video files. EzGui 3.2.0 (EzGui Screenshot) offers single or multithreaded compression and decompression modes that work well for both batch and real-time compression and decompression of images and videos and can be set to work at user-defined rates. It has an embedded WMV and MKV player that allows you to convert several video files to the required format. If you want to modify the video properties, you can adjust the brightness, contrast, and color, apply a watermark, and crop the video frame. The program can also work with quite a few video formats including MOV, AVI, ASF, WMV, FLV, MP4, 3GP, DV, MPEG, JPEG, GIF, TIFF, TGA, PNG, BMP, WMA, and PSD. Advantages of ezGui 3.2.0: Easily compress large batches of images and videos Compresses videos in the format you require Flexible HD video editor Highly intuitive GUI User friendly and simple to use Supports a range of video formats Take screenshots and copy the captures to the clipboard View image properties Very fast Helpful when you want to create digital prints Integrates video settings into the main window Very fast video player Free to use EzGui is a powerful, reliable, and easy-to-use graphics and video tool that will take your images and videos and make them ready for use on the

What's New In?

HitPaw Compressor is a powerful tool that can resize or compress your photos, videos and audios. This is an easy to use solution for image and video files. HitPaw Compressor includes a built-in video editor that allows you to cut and paste video clips, add transitions, remove white space and adjust audio to your liking. HitPaw Compressor is easy to use with a simple and clean user interface. There is a lot of space available on the web, which is quite easily ignored. Users end up storing a lot of valuable data on the web and forgetting them. You can make the most of this situation by opting for a file management solution that keeps everything at the right place. Efficient organization lets you enjoy both your storage space and your time. The usage of DriveHQ can significantly reduce the time you spend when it comes to managing your files. There are two features of this tool that are worth taking note of. Firstly, it has a catalog that lets you locate and sort your data from the comfort of your browser. All you need to do is use the search box at the top right corner of your web browser. Secondly, DriveHQ has a drag-and-drop feature that lets you safely move files from your computer into the app. DriveHQ Description: DriveHQ is an effective file management tool that has a catalog and a drag-and-drop feature. With catalog, you can quickly browse your drive and use the search feature to find any data. You can even easily sort them out by date. As for the drag-and-drop feature, you can just drag and drop files from your computer to DriveHQ. Are you concerned about the amount of data being stored on your Mac? Do you want to organize your files in the most effective manner? If so, you might want to try iStash. The latter is a simple file management tool that lets you create an automatic or a manual backup. Furthermore, it is a cross-platform tool that also supports Mac, Windows, iOS, and Android. With iStash you can create an automatic file backup. iStash Description: iStash is a Mac file management tool that supports Mac, Windows, iOS, and Android. It gives you the ability to automatically create backups of your data. iStash also lets you organize your files into folders or let the app do that automatically. The latter is done by you specifying your folder preference. A unique feature of this tool is that
